

Generate Forgotten Angels

The system can now generate Forgotten Angels that are visible on the Adoption side of the Web-site.

- An even number of boy and girl angels will be generated with random, age appropriate gifts for each child.
The system has 300 gift requests for each age (under 1 thru 12) for each gender.
- Forgotten Angels will be downloaded and available to print if you wish
- Forgotten Angels can be made available on the Sponsor and Adoption pages for on-line adoption.
- The suggested starting number for Forgotten Angels is 5001 so that you can easily tell these apart from regular angels.
- Forgotten Angels will not receive an appointment time for toy pickup.

Generate Forgotten Angels

NOTE

Forgotten Angels generated on the Website can be used for the Sponsor and Adoption process if you don't have enough Angels created.

Forgotten Angels will be downloaded and available to print like 'regular' Angels.
Forgotten Angels have their own numbering system, so it is suggested that you start with a number (like 5001) that makes it obvious that this is not a 'regular' Angel.
They will not have pickup times assigned as they are not tied to actual applications.

You can still build a percentage of actual Angels from the Printing program if you wish to work with Forgotten Angels using that method.

And let the system build a batch of boy and girl Forgotten Angels.

Generate Forgotten Angels.

Next BuildID: **5041**

This page will build forgotten angels that can be available for online adoption and/or printing angel tags.

Each application will hold 1 HOH plus 13 forgotten angels of the same gender, ages between newborn (0) and 12 years.
There will be one application for girls and one for boys of each age.

There is a random first name and gift/need request assigned to each from 300 possible stored name and age appropriate gifts for each gender.

For example, selecting 5 apps will generate 5 boy apps and 5 girl apps with an angel of each age, creating a total of 130 angels.

Select the total number to build below and the gift/need option and then click on Generate to start the build process.

Ensure that the Build ID number is in a different range than regular angels to avoid confusion. Click on the button (above) to change.

Current Forgotten Angel APP count: 40 Forgotten Angels: 600

New (Forgotten) Apps to Add:

Gift Wish 01:

Gift Wish 02 or Child Need:

Resulting in new applications being created. One application will have 13 boys ages under 1 thru 12 and another application will have 13 girls.

Depending on how your site is configured, you can have a Gift Wish and Child Need or two Gift Wishes.
