

Internal Only option for Sponsors

For Sponsors, If you are not going to make public the URL to let Corporations manage their adoptions, you now have the option to select Internal Only.

- This reduces the required fields, since on one will be logging in.
- You can still assign angels to Sponsors that you create like: Mall #1, Mall #2 as well as corporations that are taking a batch of Angels. You can then print them by Sponsor.

The screenshot shows a web interface for 'Corps / Unit: Online Adoption Setup'. On the left, there is a navigation menu under 'Hampton Roads' with links for 'Angel Tree Links', 'Corps Setup Info' (1-3), 'Setup Online Adoption', 'Setup Pre-Registration Messages', and 'Validate DDLB1-5'. The main form area contains several fields: 'Online Adoption Active: *' (checkbox), 'Return Address: *', 'Return City: *', 'Return State: *', and 'Return Zip Code: *'. A note on the right states: 'Note: (max length 255 characters) Internal Only relaxes required fields on Sponsor screen'. The 'Internal Only' checkbox is checked. Below the form, a partial address is visible: '5525 Raby Rd', 'Norfolk', 'Virginia', and '23...'. The 'Internal Only' checkbox is highlighted with a blue border.

This changes the requirements on the new Sponsor screen:

The Salvation Army Sponsor Menu

Corps Manager for the Hampton Roads Corps

Current Sponsor/Adopt Status: Internal Only

Welcome: Seth Atkinson AC .

Search Sponsors

Sponsor Details	
Type	Count
Individual	
Corp/Org	106
Total	0

Manage Adoptions

Adoption Details	
Status	Count
Adopted	0
Available	0
Total	0

Now you need only fill in the sponsor type along with first and last name for individuals or corporate name and contact for corporate sponsors

Sponsor Registration.
